CANTON PLANS MODERN CITY.

Mayor Writes to Bay City Executives for Ideas on Building.

(By A. P. NIGHT WIRE) SAN FRANCISCO, July 23. A letter from Mayor Sun Fo of Canton, China, asking for some ideas on building a modern city was received today by Mayor James Rolph, Jr. The old wall surrounding Canton has been torn down, Mayor Sun Fo wrote, and the municipality is ready to erect a modern city, so information regarding street-car systems, electric lights, waterworks, sewers, playgrounds and other modern features is needed.

the prices higher and higher; selling and reselling on small payments and interest, so that the man repaid his deferred payments. Then the price of cotton and wheat and corn and hogs started downward on the same path that Cuba's sugar was following. The American and cultural speculators found themselves in full fellowship with Cuba's planters.

So we see that the profits of the speculators in Cuba have disappeared. He cannot meet his notes; the banks cannot afford to carry him; and both he and the banks are ruined. Pretty much everybody is directly or indirectly affected and all of them stop spending simply because they have nothing to spend. We call it a buyers' strike, but it is really buyers' paralysis with a clogged circulation, a case of credit congested and "frozen."

MUST INCREASE EXPORTS.

Discussing his plan for the establishment of an international exchange standard, Mr. Crossinger said:

"We need to increase our exports but in our new quality as a great creditor country, that curious combination of wealth, of money, of practicality, of the most courteous and most courteous; of why Russia is now able to keep a most character which functions in

many governments, must be doubted. I am aware that there has been much opposition to the United States becoming a party to any such co-operative international medium of the purposes of international trade. It has been assumed that because our money was the best in the world—our most expensive—therefore we could not afford to become partners in any international banking plans with states whose money were of lower quality. But this is not so. I am aware that other nations are compelled to exercise against us for the very reason that our money is so much more expensive than ours. We will be compelled to hold aloof from plans which might be efficacious if we were a party to them. For myself, I believe the plan deserves the most careful consideration and the country could well assume such a program."

ATLANTA GETS NEXT NEW THOUGHT MEET.

LOS ANGELES WOMAN MADE DIRECTOR OF INTERNATIONAL ALLIANCE.

(By A. P. NIGHT WIRE) DENVER, July 23.—Atlanta, Ga., was selected as the 1922 convention city for the International New Thought Alliance, which completed business sessions today, although it had not officially adjourned until Sunday night following a public meeting.

Directors elected for three years are:

Misses Harriet Hale Rex, Los Angeles; Mrs. Elizabeth Towne, Holyoke, Mass.; David Walter Pye, New York.

The following were elected for two years: Mrs. Mary E. T. Chapman, New York; H. H. Schroeder, St. Louis; Mrs. Mary L. S. Butterworth, Philadelphia, and Marcel Kraus, New Orleans, were elected for one year.

Officers of the alliance are also members of the board of directors.

Plan to Meet in Salt Lake City.

DETROIT, July 23.—The general mid-year meeting of the American National Livestock Association will be held in Salt Lake City August 20 and 21. Questions of vital interest to the live stock industry throughout the United States will be discussed.

twentieth century, though dull, but has its roots in the tenth. And if we obtain this insight we may understand why otherwise would be mystifying. For it will throw a clear light upon the Russia of today as it stands in stark relief to the Russia of the Romanoffs, and it will let enough radiance into the dim places where the great events of the future are forming to give us a glimpse of this giant a few years hence.

There is, indeed, so much to tell about this great, simple, rather helpless people that have been the hands of fanatics, schemers, madmen and thieves, so much about the miseries they have brought upon themselves; their nakedness and destitution and dreadful need; about the look that one so often finds in interrogates the heavens, much as to say:

"God, surely You are not paying any attention to Holy Russia any more. You could not be and permit such things."

RECONSTRUCTION.

There is so much to tell about the general collapse and breakdown of a once gigantic industrial and commercial machine and about the unscrupulous methods of business generally: about the mammoth purchases they must make some day from the western world. Europe or countries like ours which may be Russia is apt to be in the

position of a friend and business customer.

And so we come to one of the greatest dramas of commerce in the history of the world, the intricate international played to capture pre-eminence in Russian trade and to

the world's greatest banks and gold.

These are the players in the gold for setting the world on fire.

These are the players in the great trade game and they are old and experienced. They are the Americans, the over-shrewd and treacherous British, the aggressively aspiring Japanese and the Germans already holding their cards under the deck.

These are the players in the gold for setting the world on fire.

These are the players in the great secret of mine. Be patient. Go with me. I will tell you all.

I did my best to hold aloof from the form and color and fascinating phenomena of Russian life. Get the atmosphere. Study the psychology. Acquaint yourself with the sights and sounds of the life of the people. The secret is out when the mystery is unfolded and the greatest puzzle the world has known for centuries is solved, you will understand in complete fullness.

LINER HELD UP
BY SABOTAGE?Hawkeye State Arrives Here
After Many Mishaps.

Passengers for Recent Elks' Convention Aboard.

Inexperienced Men Make Up
Boiler-room Crew.

Suspected sabotage on the magnificent 22,000-ton liner Hawkeye State, which arrived at Los Angeles Harbor yesterday from Baltimore, transformed the summer cruise of the liner through tropical waters into a voyage of breakdowns and delays that resulted in a party of delegates to the Elks' convention arriving here two weeks late for the festivities.

Capt. Charles Peterson, veteran Pacific Coast navigator, who has piloted the Hawkeye State since her construction, was presented with a resolution expressing the appreciation of the 300 passengers for his efforts in their behalf during the long trip.

The liner was due at the harbor two weeks ago from the east coast with 200 first-class passengers for Los Angeles, but instead of arriving in Honolulu, All went well until the vessel passed out of the Panama Canal, according to Capt. Peterson.

BOILER'S BREAK DOWN.

Two hours after the liner had departed from the harbor of Balboa the vessel broke down with her boilers out of commission. An examination showed that salt water had entered the boiler tubes, causing a number of tubes to burst. The master declared that in his opinion the breakdown undoubtedly resulted from sabotage by members of the crew.

Salt water also found its way into the vessel's tanks of drinking water, it was said, with the result that the passengers were forced to drink boiled sea water until the steamer reached the Pacific for the doctor. For thirty-six hours the Hawkeye State drifted helplessly in the open sea, at other times making no more than one knot per hour.

ESCAPE WRECK.

Extreme difficulty was experienced in navigating the perilous channel at Balboa, and the Hawkeye State, on account of the difficulty in handling the liner with the steam pressure very low in the boilers. A heavy gale nearly blew the liner onto the rocks at the harbor entrance, a number of passengers screaming when the vessel drifted perilously near the jetty. After navigating the channel the engines went dead and the liner drifted into a mud bank in the harbor, being pulled off with difficulty by a number of smaller craft.

In order to relieve the monotony during the liner's stay at the small Mexican seaport town, the American and British crews organized a series of festivities on the huge liner, the largest vessel ever entering that port.

REACHES LOCAL PORT.

After undergoing repairs for seven days, the boilers were finally put in shape and the vessel sailed for San Francisco Harbor at a reduced speed. Upon the arrival of the vessel here yesterday some of the passengers likened the conditions on the Hawkeye State to those of the famous liner, the *Titanic*.

Robert Burns, a prominent attorney of Boston, who came out on the liner as a delegate to the Elks convention, accompanied by Mrs. Burns, issued a statement to the press that many of the passengers became very ill from drinking salt water during the trip up the Pacific. Mr. Burns advised that his party not only had to bathe in ocean water, but were provided with salt water for drinking purposes.

DARNEES CHARGED.

Capt. Peterson demanded an emphatic denial to the report of a shortage of fresh water. The series of unfortunate delays were laid partly to the class of men recruited for the engine room. With a large majority of the engineers on strike at Baltimore at the time of the sailing of the Hawkeye State, the liner was sent out of the eastern port in defiance of the unions, but owing to the strike Capt. Peterson stated men in every vessel of the fleet from prize fighters to magical steamers were signed on in the engineering force.

The vessel will sail at 1 a.m. today for San Francisco, from where she will go to Honolulu on Thursday.

ALBION'S ATHLETES BOW TO AMERICAN HUSKIES.

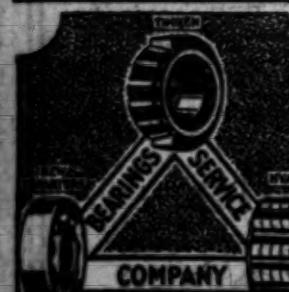

Yale-Harvard Squad Swamp Oxford-Cambridge; Negro Gourdin Breaks World's Broad Jump Record.

(BY A. P. NIGHT WIRE)

CAMBRIDGE (Mass.) July 22.—A new world's record for the running broad jump—15ft. 3in. by E. G. Gourdin of Harvard—was developed today in the international track and field meeting which the Yale-Harvard combination won from the Oxford-Cambridge team, eight events to two.

In all, six records fell, the five others being previous marks at these games, some of which had stood for almost a quarter-century. In another event, the 120-yard high hurdles, the record for the games and for Harvard University was equaled.

IN ALL FOUR.—American soldiers won all four field events and in four of the six running races. To the new records Harvard athletes contributed two, Yale two and Oxford and Cambridge one each.

Gourdin, a negro, who has been the principal factor in the strength of the Harvard team for the last two years, was the outstanding star in the first event he won the 100-yard run.

Then from the sprinting land Gourdin walked leisurely to the trial jump, running with easy strides, he sped down the cinder approach, made the take-off cleanly and with a mighty lunge ahead fell on the far right of the loan pit.

RECORD LEAP.

Gourdin's leap of 15ft. 3in. was farther than any jump ever recorded to date, the record of which had been noted as that of 14ft. 11in. made twenty-two years ago at Dublin, Ireland, by Peter O'Connell.

That record jump was qualified for official acquaintance in all details was subscribed to by Gustavus T. Kirby, president of the intercollegiate A.A.A.A., and referee of the games.

Gourdin was the only double winner. Capt. Rudd of the British team, made a new record of 4ft. 8in. for the 440-yard run, and just the half-mile to the elongated Tommy Campbell of Yale, who set a fast pace and finished the best race of the day. C. D. Krogness of Harvard equaled the Harvard and the international series record of 16 1/2 in. in the hurdles, second in each of the high jump and third place in the broad jump.

GETS A KICK.

In the mile run, won by H. B. Stallard of Cambridge, Captain D. F. O'Connell of Harvard was incapacitated when the Cambridge star kicked his heel accidentally in passing. In the 3-mile run, the Englishman Noel A. McLean, the long-distance star, M. K. Douglas, a freshman at Yale, won.

J. Fiske Brown, Gourdin's teammate, who had been shown with a record before M. C. Nease, the Oxford star, had bettered the old record.

RESULTS.

100-yard dash: Won by E. G. Gourdin, 10ft. 6in. Hammer throw: Won by J. P. Lyons, 46ft. 6in. Discus: Won by H. G. D. Rudd, 100ft. 6in. Shot: Won by H. B. Stallard, Cambridge, 40ft. 6in. (New record). TRAPSHOOTING SQUAD MAKES NEW RECORD.

(BY A. P. NIGHT WIRE)

NEW HAVEN (Conn.) July 22.—The world's trapshooting record for sixteen yards, 100 trapshooting, was broken in the eastern zone competition here today. A squad of spearmen shot 209 straight targets. All four ran 95 hits out of a possible 100 and continued peppering the flying targets until the record was established.

The squad is composed of J. M. Hopkins, New Haven; J. Clarke, Worcester, Mass.; C. H. Pratt, Princeton, N. J., and L. F. Curtis, Boston.

ANGELS BLOW SECOND GAME.

Contest Forfeited to Seattle by Enraged Ump.

Byron Gets in a Mix-up With Baldwin and Lyons.

Killefer Easily Annexes First of Double-Header.

BY HARRY A. WILLIAMS.

Los Angeles retained its sun spot in the first division, although it would have been blotted out by Bill Byron had not our Angels walloped Seattle, 6 to 1, in the front section of yesterday's double-header.

One error and a stern rebuke was all the Angels were able to drag out of the second frame. Mr. Lyons brazenly forfeiting the game at the start of the seventh inning with the Swishers leading, 6 to 0.

GUMMED UP.

Thus was hopelessly gummed an otherwise perfect afternoon, and a possible no-hit game for Rocky Lyons, now in his second year. Up to that point Schor hadn't allowed the Angels the suspicion or shadow of a hit, and was going strong when Mr. Byron blew up.

Byron had no loose furniture handy, the unshaven umps were given nothing more bristling than a salvo of soft seats as he departed to the accompaniment of a quartet of police, leaving the game in ruins. Both pitchers twirled shut-out ball until the ninth, when each team made two runs. Then Alexander tightened, while Meadows blew up in a seven-inning exhibition for his four runs. Score:

NEWS AT THE STATE CAPITAL

[SPECIAL CORRESPONDENCE]

SACRAMENTO, July 21.—An attempt on the part of the members of the State Board of Commissioners to charge lobbying expenses incurred during the last legislative session to the state, was nipped by the Board of Control.

Development seemed to light the fact the commissioners were opposed to what is known as the boiler bill, which was passed and approved.

The commissioners were opposing the commission's powers relative to the inspection of boilers.

Determined to defeat the measure if possible, the members of the commission voted to divide the bill into both houses of the Legislature telegrams urging them to vote against the bill.

The bill, including these "lobby expenses" cost approximately \$100,000, and when the Western Union Telegraph Company presented its bill as directed by the Industrial Accident Commission, the Board of Control refused payment.

Hoping to be relieved of paying the \$100,000 out of their own pockets, the commissioners, through their attorney, Dr. Webb for a ruling on the Board of Control's action, and he held the bill was invalid.

Economy in state government will be the policy of newly appointed State Controller Riley. He has agreed to operate with the Governor and other officers in bringing down the government cost.

Los Angeles county, by virtue of having been largely atten- dant in her public schools gate the lion's share of the apportionment of State school money just made by State Superintendent of Public Instruction. The amount of the apportionment total is \$223,560.41 in \$85,897.83 or \$36,967.93 in excess of the sum allotted San Francisco, the county's nearest rival.

VIENNA ARCHDUKE'S FURNISHINGS SOLD.

NEWLY RICH PAY MANY MILLION CROWNS FOR BELONGINGS OF ROYALTY.

BY THE ASSOCIATED PRESS: VIENNA, June 22.—The amount of ready money circulating in Austria was illustrated by the recently concluded sale of the rare furnishings of Kleopatra, one of the residences of the Archduke Ludwig Victor. It netted many million crowns, and the newspapers say the purchasers were virtually all-newly rich Viennese.

Many professional collectors and buyers from France, England and elsewhere came here for the sale, but they could not compete with the collectors, who can afford up to millions, and the bidding in hundreds of dollars, pounds and francs they said were out of the running. Several rare pieces, including a 1,000,000 to 1,500,000 crowns each.

The Vienna Derby just run was another illustration of the money plentitude. About 30,000 persons attended and the receipts of the betting machines alone, was 4,500,000 crowns.

NOTATION TO STUDY THE TIMBER PROBLEM.

WASHINGTON, July 14.—A new experiment station will be established at Asheville, N. C., early this month by the Forest Service. Superintendent of the Southern Apparatus and Equipment Division, in charge of the location of this station. Its chief object will be to obtain information for determining the best methods of handling forest lands in southern mountainous areas.

For many years the United States has depended for a large part of its hardwood timber on North Carolina, Virginia, West Virginia, Kentucky, Tennessee, Georgia and South Carolina. The area of hardwood production in this region, with a cut of approximately 6,000,000,000 feet, was reached in 1929. By 1931, the production had fallen 50 per cent.

The country, as a whole, will, in the future, have to depend on the mountain slopes of the southern Appalachians for a very large percentage of its high-grade hardwood, the rest will come from.

bulk of which is now in the lower Mississippi Valley.

The general timber situation is exceedingly serious, official foresters say. Three-fifths of the original timber in the country has been destroyed or utilized and a considerable percentage of the remaining two-fifths is made up of inferior second growth. One-half of the timber left is in the three Pacific Coast States, Washington, Oregon and California.

The Appalachian Forest Experiment Station will deal with the problems of a forest area approximately equal to twice that of present-day Germany.

FIREMEN SAVE LIFE AFTER DOCTORS FAIL.

BOSTON, July 14.—A case in which the fire department was called to save the life of a young woman who was on the operating table at a hospital and succeeded became known today.

The patient had stopped breathing after a major operation and heart and pulse beats became faint. Physicians and nurses had tried for an hour to revive respiration without success when the fire department was called upon to send a pulmotor.

The patient was so weak that oxygen could not be pumped safely into the lungs, at first and clear air was alternated with a dash of oxygen.

After seven minutes breathing was restored to half an hour the patient's respiration was normal. Dr. S. L. Strong, the physician in charge, said today that the pulmotor proved effective and he praised highly Capt. William Swan and the fire department squad in charge of it.

PRESENCE OF MIND SAVES MAN'S LIFE.

DANVILLE (Ky.) July 21.—When a bystander carelessly threw down a lighted match where Delbert Morgan, a workman in this country, was cleaning an automobile, the terrible burst of flames enveloped Morgan.

While persons looking on screamed, the human torch had the presence of mind to run across the street to a blacksmith shop where he knew was a barrel of water.

He jumped into the water and T. D. Morgan, the blacksmith, poured water over his head, helping to extinguish the flames.

Morgan was severely burned about the face and body, but it is said he will recover.

JURORS PERMITTED TO TASTE EVIDENCE

NEW YORK, July 22.—A jury before Justice Borst in the extraordinary term of the Supreme Court established a precedent in liquor cases by permitting the jurors to taste the alleged hooch to the jury room to "taste and smell it."

An hour and a half later the jury acquitted the defendant, Ben Horowitz of New York, of the charge of possessing liquor.

Justice Borst made it clear that any jury in a liquor trial has a right to taste the "evidence" in order to determine whether or not it is hooch. Sometimes there are several bottles and even jugs of "evidence" on the counsel table, and if the jury so desires it may take it all into the jury room to "taste and smell it."

In this case there was but a small quantity of liquor. The arresting officer testified it was brandy, but the defense attorney said the chemical analysis showed it to contain 9.7 percent of alcohol. In turning the "evidence" over to the jury, Justice Borst remarked:

"There is not sufficient quantity for a drink for all of you, gentlemen."

*Court Rules Indictments Must

*Judge Says Bail Given by the
Accused Will Stand.*

Defense counsel won the first round yesterday in the case of the fourteen milk-distributing companies and eighteen individuals indicted by the county grand jury, when Judge Rose ordered the indictment resubmitted to the jury. The defendants are accused of conspiracy in restraint of trade, in violation of the Cartwright Act.

John L. Richardson and LeCompte Dugay, who acted as spokesman for an army of defense counsel, argued that several names, said to be five of witnesses before the grand jury during the inquiry that led to the indictment, were not included in the list on the indictment. The court held that these names are required to be on the indictment and ordered the indictment resubmitted.

At the same time the court ruled that the indictment must stand until another indictment is returned, or if no second indictment is returned, until the present grand jury is discharged. Then, it was stated, the indictment, if returned, would be exonerated.

Attempts will be made to have Schallman return part of the money said to have been turned over to him by American business men, according to Jacob Spiegelman, an agent of the bureau of investigation of the Department of Justice.

Schallman will insist he is a Russian who is a native of the Soviet Union, and he has been a person representative of Lenin and Trotsky.

One of those who spent a great deal of time on the line through error, but defense counsel agreed to accept the admission and presented to prove it. Mrs. Martin G. Carter, secretary of the grand jury, testified that the names listed as witnesses before the jury were mentioned on the indictment.

The court held that the contention of defense counsel that some testimony was received by a committee and submitted to the grand jury was not material.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, July 23.—From out of the South Seas there came through the Golden Gate the little submarine Dorris Crane. A short time later the crew was walking up Market street and for the first time in American shade showed stockings, trousers and coats.

Capt. John McCullough, master, was the only white man aboard the Dorris. His crew were all from the Gilroy Islands.

Capt. McCullough said his men never before had seen land rising more than a few feet above the sea; never before had they seen buildings higher than a coconut tree, and less than a century ago their forebears had considered a pot of the flesh of white men the choicest of viands.

Each member of the crew had tattooed on his forearm his family name.

CHICAGO, July 23.—Federal agents today began an investigation of Chicago banks to determine whether Max Schallman, self-acclaimed representative of soviet Russia, who distributed contracts for millions of dollars' worth of goods, had accounts or safety deposit boxes in them.

Attempts will be made to have Schallman return part of the money said to have been turned over to him by American business men, according to Jacob Spiegelman, an agent of the bureau of investigation of the Department of Justice.

CLEVELAND, July 23.—Chief of Police Landenberger of Sharon, Pa., came here today to arrest a woman who is said to be a member of the Karpis gang. An asserted worthless check for \$600 in exchange for a diamond ring which Mrs. Haines had advertised for sale in the newspaper, a check written to Mrs. Haines, his name was H. E. Howard. He assured her the check would be honored by him at the bank. The name proved to be fictitious and the check worthless. It was discovered that the man, 2976, 229 Grand avenue, proved to be a vacant lot.

A Wonderful Summer For a Live Boy!

A real opportunity for a happy and profitable vacation.

The Summer Session of the San Diego Army and Navy Academy, July 1st-Sept. 1st.

The moderate price of \$150 covers entire cost of board, tuition, room, light, use of arms and accoutrements and sixty cents per week for personal laundry, for the entire two months.

A boy will have chance to review or to take advanced work in all subjects. Every student must now make up his college entrance credits or bring his high school record to the Academy's superior faculty.

Recommended gradings under the Academy's superior faculty of trained teachers.

Classes close at noon, so that the afternoons may be spent in wholesome athletic games on the twenty-acre grounds or in salt water swimming in the Bay or Ocean near the school.

For reservations, write or phone

Capt. Theo. A. Davis, Pres., Pacific Beach, Cal.

High School Graduates, Attention!

YOU have had a month's rest since school closed. Enroll for your commercial course at once and you can save from \$100 to \$150. Call and let us explain our plan.

UNLAWFUL ROAD TRAFFIC BLAMED.

Breakdown of Highways Laid to Overladen Trucks.

Reduction of Maximum Load Urged by Auto Club.

State Authorities Declared Law in Enforcing Law.

Rapid deterioration and breaking down of State highways has been aggravated and accelerated by overloading and overspeeding of trucks, says a statement issued yesterday by the Automobile Club of Southern California.

The club has charged the State Highway Commission with building roads that are inadequate to meet reasonable traffic requirements and has demanded changes in construction standards that will provide better and more lasting roads. The club now charges that highways are subjected to unreasonable and illegal traffic strain.

A statement issued states that club engineers with accurate loadmeters, the statement continues, show that 70 per cent of the one-ton trucks carried loads in excess of legal requirements and an even larger percentage of the three, four, five and six-ton trucks, whose loads were

The crew of men which has been employed to prepare the grounds and build the big arena for the San Fernando Valley Fair, to be held on the Lipe ranch, one mile north of San Fernando, September 13 to 18, will start work tomorrow morning.

The arena will be 150 feet wide and 300 feet long and this tremendous oval will be completely decked out and will have a circuit of lights. The live-stock parades will be held in this arena every afternoon and in the evening it will be used for the horse show. Here all judging of stock, both by the adult and junior grades, will take place.

Weighted, carried an illegal overload. Excess of overload as high as 279 per cent was found. These facts of the most important functions of highways in California is to facilitate the movement of goods and services by trucks and the city officials believe this purpose can be fully carried out without hauling excessive loads.

The club engineers report that the present State law limiting loads to 10,000 pounds is excellent, but recommend that the maximum be reduced to 8,000 pounds. County authorities have taken cognizance of the situation and are taking measures to prevent illegal overloading.

The club has charged that the law for the protection of the costly highways is declared.

The Hunting bill, passed by the Legislature, fixes the maximum load at 15 pounds to an inch of the width of the channel base on any one wheel regardless of the size of the truck.

The Automobile Club says that it is of the utmost importance, not only to build highways adequately, but to

protect them from undue strain. One of the most important functions of highways in California is to facilitate the movement of goods and services by trucks and the city officials believe this purpose can be fully carried out without hauling excessive loads.

BEACHES COMBINE BUSINESS WITH PLEASURE

HUNTINGTON BEACH BOOMS.

City of Dreams Comes True; Ideal for Resident and Investor.

BY JAMES F. ROGAN,

Secretary Huntington Beach Chamber of Commerce.

Huntington Beach is 100 per cent prospective. That is, the Huntington Beach of today. When the town was just out in 1901 it was known as Beach City. Its possibilities as a beach city so attracted tourists that the owners of its lots are scattered all over the world. Evidently every State in the Union is represented in its ownership. At the front door of Huntington Beach is an attractive stretch of seashore 1000 feet for miles and, plus another 1800 feet of miles of fine sandy beach. Pacific Ocean, Pacific Coast, is the business center of the city.

At the wide stretches of sandy beach stands a blue thirty acre area on which the city is built, parallel with the main business portion of the city runs Ocean avenue, and for five miles this boulevard 125 feet wide will be the future continuation of the new Ocean Boulevard from Long Beach to San Diego, when the latter is completed. The State Highway Commission has just announced that the new bond that will be issued to the boulevard from Seal Beach to Huntington Beach and that work will start on the highway before the summer has passed.

The banks of the bluff level or table lands extend for miles in every direction. The elevation where sea level about a mile from the ocean, is approximately 100 feet. These topographic, geographic and geological features make Huntington Beach in a high rank as a residential and resort district.

SHOULD JUDGMENT.

The forefathers of Huntington Beach showed judgment in laying out the city proper, with its wide boulevards, its fine parks and public park surrounded with the beautiful natural flowers of California. The parkways run parallel with the boulevards and the lots that have on them the bluffs, the bluffs the city struggled along with many setbacks, but its citizens still kept up hope that some day it would be the planners had dreamed.

Now the bluffs, the bluffs, the bluffs, come true, for, under the fertile acres and city lots there lay hidden from man's eyes the black gold called oil, so Huntington Beach got oil and with it wealth. These fertile lands are dotted with the handiwork of men drilling for oil. Men have made fortunes over night, but the oil fields are at the back door. Yet Huntington Beach still retains the beauty of its seaside resort at the front.

PROSPERITY ARRIVES.

So the prosperity that the citizens have won, has arrived. The oil men are contractors for houses and the contractors are working day and night to build them. To the tourist, home-seeker or investor Huntington Beach offers a rare opportunity.

Huntington Beach has a safe, sandy beach for bathing without an undertow, and fishing grounds extending along the entire front of the beach.

It is a sanitary, open-air, salt-water bathhouse and bath-house. All modern municipal improvements including gas, telephone, electric lighting and a new \$100,000

Boy, page Mr. Ibsen! Have him call "The Doll House."

Bits of silk, satin and lace

Dress the dolls that fill the place.

If midday next door blossoms out in a new gown, one of these days, there's her old one to room 505 Higgins Building.

In that room scores of busy women are daily making over odd bits of raiment into very attractive dolls. They are known as "orphan dolls" and are the very latest inhabitants of "The Doll House."

Ibsen's doll house had only one doll. She was grown up and very unhappy. In this doll house, by contrast, most of the dolls are very little and as happy as happy can be.

In fact, the whole reason of their existence is to make others happy, so, of course, they can be nothing else themselves.

Twenty-five dolls, which had been

an initial flow of from 200 to 2500 dolls a day,

Huntington Beach celebrates each year the Orange County Fair. This is the one big event in which all of Orange county participates. It has an annual attendance of 750,000 persons. This year it promises to be among the larger celebrations.

Huntington Beach also has an active Chamber of Commerce, which has its own building situated at the entrance of the municipal pier. The membership is about 300. It also has what is known as better business practices as its object. The elimination of such crooked oil companies as attempt to operate here.

Good Business.

"Say, Jim," said the friend of the taxicab driver, standing in front of the vehicle, "there's a nurse lying on the floor of your car."

The driver looked carefully around the car and responded carefully.

"Sometimes when business is bad

I put it there and leave the door open. It's empty, but you've no idea how many people jump in for a short drive when they see it."

SAFETY AT SEAL BEACH.

Surf Asserted to be Free From Undertow; Good Fishing and Entertainment.

BY SADIE C. LOFTUS.

Seal Beach asserts it has the distinction of being known as the "safe" beach of the south coast. Thousands of persons bathe in the Seal Beach annually, but there has never been a drowning on that stretch of ocean front extending from the pier to Torrance, and swimming from the pier makes it safe for children and elder persons who cannot swim.

Owing to the gradual slope of the sandy beach, one can wade out a considerable distance into the water, even during the higher tides. The gradual slope of the beach also tends to lessen the force of the breakers and they do not pound on the rocks.

The only casualties that have occurred at Seal Beach have been in or near the outer channels of the two bays, Anaheim and Alamitos, where deep channels are found, and the tides. There is safe bathing in both of these bays for those who prefer still water.

GOOD FISHING.

To the disciples of Isaac Walton Seal Beach offers attractions. There is good fishing from the pier and from the bridge at Anaheim and stock is now being sold. The board of directors is composed of local business men and the site for the first test well has been selected.

The city has a complete sewer system, electric lights, gas and soft water.

For the kiddies' pleasure there is wading in the shallow surf; a children's playground equipped with swings and teeter boards right down on the beach, and a giant roller coaster.

Band concerts are given every

the dolls to tell tales. Then there are painted tires and beadwork.

BALES OF DOLLS.

Down in the basement of the building the dolls are banished to temporary confinement. There are bales of them stored away so that they will keep clean and cool until the week of September 4, when the convention begins.

The societies that are represented in this doll-making campaign are: The Young Ladies' Club, Catholic Women's Club, Ladies' Benevolent Association, Queen's Daughters, the Altar Society of every Catholic church in the city. From this beginning it is planned to extend the campaign throughout the entire diocese from Monterey to San Diego.

INQUIRIES FLOOD ALL-YEAR CLUB.

Replies to Advertisements Prove Plan's Success.

Many Arrive to Come Here This Summer.

More Pledges to Southland Fund Are Received.

That the summer advertising campaign of the All-Year Club of Southern California has already proved its value and has indicated unmistakably how much may be expected from the enlargement of effort that is planned for succeeding years, was the opinion expressed yesterday by those in charge of the All-Year movement, following a preliminary analysis of the returns up to yesterday from the advertising that is now appearing.

Although the first copy appeared in the newspapers only a week ago, forty-one newspapers in thirty-three cities and towns being used, requests for information have come in hand from 311 communities in the Southwest, Middle West, and South. From Texas alone, inquiries have come from twenty-four towns and cities. In addition, all of the 150 of the writers declare their intention of visiting Southern California this summer. Others state "that they are permanent residents."

The hundreds of inquiries that are direct replies to the All-Year advertising are only a part of the result. The All-Year Club has sent 1,000 cards directly to the railroad ticket offices in the home communities of those who have been interested. It has, therefore, been considered a success in the efforts of the All-Year Club that such inquiry here means others have inquired at their railroad offices and that many others have been arranged to come here this summer.

As the advertising returns continue to mount, interest in contributing to the All-Year fund increases. Many

DIPS HER IVORY HANDS IN SUDS.

Chinese Film Star Assists Her Father in Laundry.

One Reason Why Success Has Come to Anna May Wong.

She's "Pip of a Type" and Gives Back No "Chin."

BY TIMOTHY G. TURNER.

Anna May Wong is the Chinese exception to the American rule. The films have not spoiled her.

It is well known what screen success does for the maid of beauty and youth. It is apt to wear her from home in a twinkling, and some of the studio directors say it makes her "all swelled in the head," which is the cinema manner of saying "up stage" and that is the stage way of saying conceited, opinionated, stubborn, vainglorious and smug. Now do you understand?

But it appears that Chinese culture, including the art of the film, has prevented all that. For with the Chinese the ties of family and the ideal of work are stronger than any surface things.

The Anna May Wong makes \$150 a week as a cinema actress, and yet is not ashamed to work in the laundry on North Figueroa street that her father, Sam Kee, conducts. Anna May Wong has a little room in the barn of a building, with, save for a little Chinese garden, its desert of vacant lots on all sides, its almost paintless walls and its roof of floating linen.

PUBLIC KNOWS HER.

The public knows that the Anna May Wong is "Dinty," "Outside the Law," "Shame," and soon to appear in "Bite of Life," the Chinese maiden seen sometimes in leading parts, sometimes in comedies, employed by the directors of various companies when they want a type. But few know the Anna May Wong of the laundry.

Anna May Wong is 15. She is slender, has hands of ivory, carved as delicately as an idol's, and her face is not made of cheeks, ears, eyes and lips, but of petals. Such, after all, is the fashion of the Chinese people. Is Anna May Wong, "A pip of a type," say the directors.

"We need a Chinese slave girl," send for Anna May Wong.

The telephone rings in Sam Kee's laundry and Anna May Wong is at the studio next door. But she is not notable, not only for her acting, but because she does as she is told without "giving back any chin." That is sufficient for the directors.

Anna May Wong in her laundry home looks as she does on the screen, except that the petals are tinted with pink and the hands are the color of old ivory. The Chinese poet would say she stole the color of her hands from a gardenia. Chinese poets always say things that way.

THEY KNOW A LOT.

Sam Kee has a big establishment, for a Chinese one. There are a dozen Chinese employed there, many of them members of his family. Sam Kee has lived in California living on forty years. His wife is California-born. They have three sons and three daughters. The small children on rainy days play on the laundry floor, which is big enough for a country dance. They go to school, and the older children have been educated in the high schools. Sam Kee is very proud of his children's knowledge.

"I know a lot," he says.

Running a Chinese laundry is no

elemental art, as anyone knows that

has lost his ticket or a collar.

The laundry is a machine of human parts as complicated as one of

spiders and whips. The wash goes

in one end and vanishes, the shirts

one way, the collars another, the

socks here, the underclothing there,

and then they all come out together

in neat piles.

The collar is tied with a bit of

string, and attached to it is a tag

with the Chinese numeral on it.

When these strings are removed

they are placed on pegs, the short

strings and the long ones together.

Nothing must be thrown away, not

even a piece of string. The num

bered pieces of cloth are secured to

the collars and other starched

things without aid of string. It

is done by ironing the tag onto the

collar where the string is set. It

sticks, and may be yanked off in a

twinkling, and put into the cigar

box, where the numbers go.

KNOWS THE ROUTINE.

Anna May Wong knows this rou

tine thoroughly. It would take a

lot of time to tell it all, says,

then one wouldn't understand. It

has to be done. She even under

stands the book-keeping; they have

that too, in a Chinese laundry. An

Anna May Wong has gone to China

as well as English school. Some

times she understands the book

keeper.

The book-keeper in Sam Kee's

laundry is a very important little

Chinese of 30 years. He always

waddled when he was in the house

weather, and he looks like a Medi

terranean pirate—a bland, harmless

little pirate.

Anna May Wong grew up in that

atmosphere of industry, and al

though the directors do not know it,

that is why Anna May Wong does as

she does, and understands the

routine of a cinema studio, which

may not be much different after all

from the routine of a Chinese laundry.

CONSIDERATE FATHER.

When Anna May Wong began de

veloping her career, she was a

half ago her father did not ob

but now he has come to feel it is

understood, that she is too old for

such a young lady of her age

should stay at home. But Sam Kee

is a very considerate father and does

not let the world know if he dis

approves. There is no doubt but

that he is proud of his daughter.

"She can make money to buy

pretty dresses," is the way he puts

it. The little actress early felt the

call of the world outside the laundry.

She was first employed by a

restaurant on Broadway.

"I just sat around—I was at

home, but I tried pictures in my

vacation time. Then I was going

to the Central High."

So the call of the New World was

strong, yet it did not cause

Anna May Wong to leave the filial

duties of the Old. For a home is

a home, whether it is a chalet in

Hollywood or a laundry on North

Figueria street. This is the Chinese

way. Chinese ways are commendably old-fashioned.

Business Men to Discuss Forming Big Sport Club.

Business and professional men interested in the formation of the proposed Sespe Country Club, to take over and enjoy the hunting and fishing privileges on the Sespe River in Ventura county, will meet Tuesday evening in the Union League Building to go into the details of the plan.

Temporary trustees elected to perfect the preliminary organization are Dr. E. G. Bashor, Oliver A. Clark, W. B. Bishop, L. A. Baird and W. E. Campbell.

The club has secured exclusive privileges from the Sespe Light & Power Company covering the use of Kellerman Lake, on the watershed of the Sespe River, and a strip of

GIANT TREES AS MEMORIAL.

A meeting of unusual significance to Californians will take place among the redwoods of Humboldt county on Saturday, August 6, at 10:30 a.m. It will be the dedication of Bolling Memorial Grove, adjoining the California State Highway, and which was recently purchased by Dr. John C. Phillips of Wenzham, Mass., and deeded to the Redwood League for perpetual public use to stand as a memorial to his brother-in-law, Col. Raynal C. Bolling, the first woodsman to fall in the World War.

Dr. John C. Merriam, president of the Carnegie Institution of Washington, and of the "Save the Redwoods League," presented the former in the movement to preserve these unique trees, will be the principal speaker.

The American Legion in California, women in the community, Director Stephen T. Mather of the National Park Service and other leaders in the Save-the-Redwoods movement are expected.

Bullock's

ONE O'CLOCK SATURDAYS

Only Through Great Reductions and Very Close Pricing is it Possible for Bullock's to Offer These

150 Silk Dresses at the Low Price, \$20.00

—Every Dress of the 150 is of a Quality and Style that ordinarily demand a price far in excess of \$20.00! One hundred of these Dresses were secured by Bullock's in a very fortunate special purchase. The other fifty have been taken from much higher priced regular stocks and repriced to make them of equally unusual Value. Any Woman in need of a Silk Dress for Summer wear—should find this Bullock offering an opportunity for real Savings!

—There are Dresses of Canton Crepe—of, Taffeta—of Foulard—of Georgette—and Sports Dresses of various combinations of these Silks.

—Individuality seems to be the keynote of this group of Dresses—for every one has a distinctive bit of trimming or a novelty touch to its style that characterizes it alone of the 150. Some have banded tucks on the skirts—others have two-toned embroidery and picot-edged ruffles on the tunics and sleeves—while others have accordion pleated panel effects.

—The colors are the popular ones of the Season—Navy, Brown, Gray and Black predominating. The sizes range from 34 to 44. One should not judge the Dresses before one sees them—for there is grave danger of underestimating their real beauty and worth. Do not place

your estimate of the Dresses at \$20.00—for Bullock's considers their *actual worth* to be typical of Dresses with prices far greater than this special Bullock marking. It should be worth your while to view these Silk Dresses at \$20.00 each—on Bullock's Third Floor.

Women's Coats and Wraps of Strong Value at \$20.00

—Even Summer makes its demands for Wraps—and to make economical the satisfaction of those demands Bullock's is to offer 100 attractive Coats and Wraps at the surprisingly low marking, \$20.00—tomorrow! Women who have a Cloak to provide—would do well to investigate this Monday Value Offering—on Bullock's Third Floor.

—Four styles are concerned in the group—three of which are of Tricotine; the other is a handsome three-quarter length Coat of Bolivia; all are expertly lined with beautiful silks. The colors are blue and black—with blue taking the lead.

—A good range of sizes included—and every style of real charm and practicality. Wisdom would suggest the provisioning now of one's new Fall Coat or Wrap. It may not be possible to duplicate this offering for many months. Only 100 Coats—to go on sale at \$20.00 each—on Bullock's Third Floor—tomorrow morning.

150 Women's Fiber Tie-On Sweaters, \$3.45

—Delightful are lightweight Fiber Tricotte Sweaters for wear on the hot days of Summer—so attractive are these which Bullock's has secured to offer at so low a marking—that one should not stay very many hours at Bullock's tomorrow!

—The models concerned—one with plain body and Tuxedo collar with tie of fancy weave in contrasting colors—the other model is all plainly woven and has Tuxedo collar with such a broad ruffle. A great variety of the popular summer shades. 150 Sweaters at Bullock's Fourth Floor.

Cool White Silks \$2.95

SOCIETY.

returning left with them a baby daughter.

Mr. and Mrs. J. W. Summers have moved to California. Miss Summers, whose Mrs. Summers will stay for several weeks. Mr. Summers will return to Taft the early part of next week.

SANTA PAULA.

After a wedding trip to San Diego, Mr. and Mrs. John Timme, married last week in Los Angeles, will make their home on Pleasant street, in the old home of Mrs. Dorothy Smith, and make her home in Santa Barbara. Mr. Timme is associated with the Oak Ridge Oil Company, and is a member of the American Legion chapter of the country.

Lorenzo Landreth and Miss Victoria Parr Casner, youngest daughter of Mr. and Mrs. L. P. Casner, were quietly married in Ventura on Saturday last by Judge Shepard, only the two members of the bride's family being invited to the ceremony. They will make their home in Santa Paula.

A masquerade lawn fete given on Monday evening at Sunnyslope, by the Misses Marjorie, Marian Carpenter and Howard Carpenter, was shared by Japanese maidens, girls from Egypt, colonial damsels and jesters in motley attire. Lanterns of gay hue adorned the garden, and the program of the entertainment formed a part of the evening's entertainment. The invitation list was a large one.

A pretty children's party was that given on the afternoon of July 15 by Mrs. Cora G. Caldwell, for her daughter, Lydia May, whose sixteenth birthday fell on that date. Not only the anniversary of the honoree is on the 18th, but also that of several of her friends, so that the invitation extended to little Misses Esther Copland, Agnes Pinkerton, Cloie Bradbury and Isobel Jarvis. About thirty little girls and their mothers were bidden.

Mrs. Robert M. Clarke and children of Los Angeles are this week occupying the C. C. Teague cottage at the Sulphur Mountain Springs, close to the cottages of Mrs. Clarke's son-in-law, Mrs. J. E. Cauch and Chenoa Buckley.

Mrs. E. F. Youngman arrived this week from Champaign, Ill., where she has been spending several months with her son, William, and her daughter, Mrs. George Collier of Illinois, in whose home she arrived on Memorial Day. Mrs. Youngman made the trip partly to see the new grandson.

The Rincon is now the setting for a Santa Paula colony for numbers of residents of the city have this season built summer cottages along the stretch of shore. Among the summer sojourners, there are the A. F. Weldens, who have their cottages with their two houses, the Misses Lorraine and Margaret Welden of Alameda; at the cottage of Miss Sarah H. Blanchard on Monday, her sister, Mrs. A. L. Mulvey, entertained the members of the Arrowhead Club, Senator Aristed, Mr. and Mrs. George Estes near the Santa Paula settlement, as well as the E. C. Corryas and the H. P. Balcom family.

YORBA LINDA.

The beautiful ranch home of Dr. Lester Kellie was the scene of a delightful reunion of old-time friends, when Dr. and Mrs. A. Lupton and Dr. and Mrs. James T. Hanson of Gallipolis, O., were over Sunday. Dr. and Mrs. Kellie were entertained in entertaining by Mrs. Charles Jefferson. The eastern friends were visiting Elsie at the convention. This was their first introduction to the young bride.

Quite a number of citizens and their families attended the barbecue and dance given by the Petroleum Club to their employees and friends yesterday at Orange County Park. Among those from here were: Mr. and Mrs. Charles Murphy, Mr. and Mrs. C. O'Neil and Mr. and Mrs. C. O'Neil.

Marion Creek is the避难所 for a number of families of this city. A number have leased land and are erecting cottages. Among those to be seen are Mr. and Mrs. G. R.aine, and Mr. and Mrs. G. Gaylord Page.

Mr. and Mrs. E. D. Budden of Pasadena were the guests of Mrs. Budden's parents, Mr. and Mrs. H. A. House. Other visitors at the O'Neil home are Mrs. Charles Douglass and children of Coalinga.

LINDA.

Mrs. Orr Collins was the recipient of a delightful miscellaneous shower given at the parental home on Wednesday of last week. The honoree, Mrs. J. Collins and daughter, made their visit a most enjoyable one, and many merriment in the afternoon, and at the close delicious refreshments were served. Miss Collins received many handsome and useful gifts for the new home which will be in Maricopa. The ceremony which took place in Bakersfield, Saturday, making the daughter of Mr. and Mrs. J. Collins, the bride of Mr. H. C. Casner, of Maricopa, a very quiet one. The guests at the shower were the Misses St. Claire, Alice, Ruth, Evelyn, and Mrs. Alice, Misses, Mr. and Mrs. Wickenden, Mr. and Mrs. W. Hareman, and Miss Ryan.

Mr. W. J. Travers of the Olympia Lodge was host to a delightful luncheon given at the home of her mother, Mrs. F. D. James of 1137 Normandie Avenue, Hollywood, on Saturday. The guests of honor were Mr. and Mrs. H. L. Lovell of Burlingame, Cal., who are spending some time visiting in the mountains.

Mr. and Mrs. J. O. Conn and family were dinner guests of the latter's sister, Mrs. W. Martin of Long Beach on Sunday.

Mr. and Mrs. W. E. Landrum have come to many of the West Coast cities. Mr. and Mrs. Frank A. Boulier and family left Friday for Gen. Grant Park, where they will be joined by Mrs. Boulier's mother and father, Mr. and Mrs. W. E. Landrum of Vista, for two weeks. Mr. and Mrs. Walter Marshall and Mr. and Mrs. W. Lillie, who are camped in the mountains above Riverside, in the San Jacinto range, are enjoying the sea breezes at Catalina.

PLACENTIA.

Using tiny dolls as favors, with tabardinette decorated with pink and white flowers and lace, and base of all a huge birthday cake, little Miss Clara Ipsen was the honoree at a birthday party given by her mother, to celebrate the tenth natal anniversary of Miss Clara's birth.

Games were played during the afternoon, while the refreshments were served. Those to enjoy this pretty affair were: Evelyn Boardman, Betty Enfield, Violin Veger, Alberta Woolsey, Patricia Christopher, Ruth Daugherty, Ethel Gandy, Anna Lee, Wilma Shannon, Fern Culp, Andie LeFlore, Ruth Daugherty and Rose Clark.

Mr. and Mrs. A. B. Bradford are entertaining for a few days Miss

FOUNDING OF LOS ANGELES.

Story Written Before First Mission Play Describes City's Birth.

BY MYRA NYE.

The following story written ten years ago, prior to the first performance of the "Mission Play" at San Gabriel, is significant at this time in its relation to the birth of the second great episode following the founding of San Gabriel Mission, 150 years ago, as depicted in the play to be given in the new mission city next Sunday, directed by Lillian Burkhardt Goldsmith. In which 300 Californians, many of them from old Spanish families, will take part.

All the way from Monterey to Mission San Gabriel Archangel, the King's highway had made easy their coming. And such an adventure!

Don Enrique de Lara, polished and foreign looking, even among people of his own race—for he had most recently come from Spain—had paused to refresh themselves for a moment, and then drove on in a dignified manner befitting their great purpose, to make their journey.

WONDERRLAND REVEALED.

An abrupt turn in El Cambino Real revealed to Enrique a veritable valley stretched "eastward, glowing golden in the sunshine. Everywhere the world over there are mountains and hills, but here there are no mountains, and the hills there are and pinacled heights of glory. There is but one 'Land of the Kings' here. There is but one 'Land of the Kings' here."

"This is the King's reglamento," said the Gobernador. "Each poblador shall be a dependent of the Gobernador."

"And of the church," added the padre.

"I have chosen the place near this mission San Gabriel, because the pueblos must supply the presidio with grain, and I believe this will make the wheal land."

"The pobladores must then be taught to work. They must have tools," said the wise padre, who knew the conditions much better than the Gobernador.

"The Gobernador has ordered. Each man shall have implements. In addition, to each man shall be given two cows, two sheep, two goats and two mares. He shall have one yoke of oxen."

"And what of their dwellings?"

"Wait, I have a plan," and the Gobernador drew forth a paper and proudly laid it on the table before the padre.

WATCHES LEADER.

Enrique watched the two heads, the one finely coiffed, the other meekly tonsured, nearly touching as over the plan they bent within the rays of the candle.

The New Perky People Neighborhood Frocks are at Jacoby's

—Just the name, Perky Peggy Frocks alone will arouse the interest of every woman in Los Angeles.

—And what a buzz of excitement there will be when we tell you that these new Perky Peggy Frocks are even more attractive than their older sisters.

—We've sketched both of them but black and white pictures are poor representations for such charming colorful frocks as these.

—The dress shown on the left is made of Japanese crepe in orange, apricot, pink, light blue, rose, peacock, light green and light brown with trimmings in contrasting colors. Priced \$2.95.

—At the right is shown a smart model made up in plaid gingham—

—This same model also comes in dainty checks with sash and ruffled trimmings—Priced \$1.95.

—Make it a point to see these new Neighborhood Frocks.

PERKY PEGGY Frocks

Clever? Fetching? Just wait till you see them! "The charm of these new Perky Peggy creations so far outshines the earlier models!" you will say.

You must see them. The smart, fascinating design, of course, is only the beginning of the Perky Peggy story.

There's the wonderfully quick, simple way it slips on and fits perfectly on every woman—(the cute belt and bow give it that delicate form-fitting effect), the easy laundering (no bothersome buttons in the way) and the accurate, flawless workmanship, such as one expects to find only on expensive afternoon dresses.

Yet the price of Perky Peggys is so low—so ridiculously low—you can buy two or three for what you would call a fair price for just one.

THE PERKY PEGGY FROCKS were originally designed for "wear about the house"—but goodness, a woman who has one just can't keep it hid in doors all the time. One must show one's daintiness, beauty, etc. to one's neighbors. That is how this Perky Peggy idea got to traveling about, causing tremendous numbers to be sold in a very short time after their introduction. But one can recognize the genuine Perky Peggy instantly by the distinctive label shown on the left.

It is the question of how many forms walk along the rim of your glass when you inhale.

Girls' Corner Club.

A new club, a quiet club, a corner club, a club where women make no speeches and no dues are paid was started last Monday at the Woman's City Club to see that the local organizations concerning the sterilization of drunkards are successful.

Dr. Louis Hunt Peters, who has recently been appointed honorary sanitary inspector, 89 percent of the open-air places do not properly cleanse their glasses.

Whichever angle is personal opinion or belief as to the existence or nonexistence of germs," said Dr. Peters, "we can all get together on the common ground that we do not want to drink out of dirty glasses after a dirty, unshaven man has used it.

Swishing a glass around in dirty water after a customer has used it is not cleanliness."

There is a choice of four methods of sterilizing: by steam, immersion for fifty-five minutes in boiling water, immersion in a 5 percent solution of lye or caustic soda, or individual cups. The better method is using paper cups.

Last year there were twenty-six arrests and convictions, but this year when the cases of disobeying the law are more flagrant, according to Dr. Peters, the law is not being enforced.

Was-Was Club.

At the home of Mrs. Nellie T. Lehman in Hollywood Tuesday a charming luncheon was enjoyed by the board of the Was-Was Club. Mrs. William E. Mabes presided at a luncheon and talked with given by Mrs. Edward Duvack, drama chairman; Louise Anderson, dancer; Ida Selby, musical manuscript chairman; Mrs. S. W. Taylor, membership; Carl Johnson, altristic, and Mrs. Frank Greiger, press.

"Our Homes" was the subject of an interesting program given before the Whittier W.C.T.U. Friday afternoon. The "Friends" Bible School Building.

The three hours cited were the Francis William Home, the Home Center for soldiers and sailors in San Diego, and the Southern California Home for Women in Los Angeles.

The program was in charge of Mrs. M. J. Townsend, for many years president of the local union. She said so often the question was put to her, "Now that prohibition is in effect, what is there for the Women's Christian Temperance Union to do?" The answer is in the home.

Mrs. Abbie Jacobs reported from the Willard Home and stated that there are sixty-three girls, ranging in age from 16 to 20, years, had been received during the year, she said.

These girls have been sent to the Juvenile Police Bureau, the District Attorney's office, Dr. Barton's and the Morals Efficiency Ass.

They represented Italian, Rumanian, French, Spanish, Japanese and American nationalities and came from many different Christian denominations. Visitors are received at the home from 2 to 4 p.m. every day and those interested in this form of social work are urged to visit the home.

Mrs. Elizabeth Green, reporter for her sister, Mrs. Mary Smith, on the work of the San Diego Home Center. The work there is in charge of a house mother, whose duty it is to receive the heart-hungry boys who are away from their own mothers, visit them, care for them, and to help them to write letters of comfort and cheer. The Home Center received 6598 visitors during the year, of this number 2398 were sailors, 1777 soldiers, 178 marines and 126 aviators.

Mrs. Townsend reporting from the Southern California Home for Women and Children, said: "There are thirty in the family to whom this is home and we need the assistance of all who can help to make it comfortable and pleasant. Our home deserves the prayers and the hearty interest of all the comrades in the Southern California Woman's Christian Temperance Union. It is especially the girls of Mexico, fruits, flowers, jeans and other articles. What this union donated last year was very much appreciated and I hope that we may do even better this year."

Women's City Club.

At a meeting of the Woman's City Club, at 8 p.m. tomorrow in Walker Auditorium Building, C. Whitall, president of the City Planning Commission, will speak on "The Personality of a City."

Mr. Whitall having recently returned from a comprehensive survey of western cities, will have many new ideas on the subject.

Non-members may obtain guest tickets for twenty-five cents at the door.

Special guests on this occasion will be Mayor and Mrs. Cryer. The Mayor will address the club briefly. Next Monday closes the membership campaign of the club and the members will have the latest number of new names to her credit.

Vegetable Compound

Vernon, Tex.—"For three years I suffered until agony each month with pains in my sides. I found only temporary relief in doctor's medicine or anything else I took until my husband saw an advertisement of Lydia E. Pinkham's Vegetable Compound. I mentioned it to a neighbor and she told me she had taken it with great results. I then advised her to try it. I was then in bed most of the time and my doctor said I would have to be operated on, but we decided to try the Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am a dressmaker and am now able to go about my work and do my housework again. You are welcome to use this letter as a testimonial as I am always glad to speak a word for your medicine."—Mrs. W. M.
